Factory Show

Our plastic injection lines are designed for optimal efficiency and quality control. Combining advanced automation with human expertise to efficiently deliver high-quality products.

- Semi-Automatic Management: Each line is staffed with 2 skilled workers who focus on key operations and monitoring.
- Centralized Feeding System: Ensures a stable and continuous supply of materials.
- Robotic Assistance: Equipped with robots that handle repetitive tasks, such as picking and placing, to enhance efficiency, precision, and reduce defect rates.

Air Power Technology

- Enhanced water efficiency
- Softer, rain-like shower experience
- Eco-friendly water saving 25% plus
- Improved pressure for a luxurious feel

Easy Clean Feature

- Silicone Material Use Finger Only
- Goodbye to Scum , Clean in 5 Seconds Flat
- Smooth Surface, Stains Can't Stick
- Raigu Shower, Life is Water-full

Constant Temperature

- Keep the control within 2 degrees
- Precision in every degree, Peace in every Drop
- Smart Showering, Made Simple
- Steady Warmth, Zero Guesswork

Raigu Shower Manufacturing

- 19,000 Sqm factory facility
- 50 Injection molding machines
- 4 Assembly lines with 1,500 plastic moulds
- Professional laboratory
- Annual production: 500,000+ showerheads
